

05.15.2020

To our community,

The health and safety of our passengers will continue to be our top priority. Elite Van Transportation will continue to sanitize our van after each transport. As the community starts to go through different phases, we will continue this practice. We will always put the safety and health of our clients and drivers first. We are proud to be a part of this great community we live in.

Thank you

Elite Van Transportation LLC
